Individual Certificate per Animal	12.00			
Special Analyses	On Request			

All prices in Euro and without VAT. Please see our General Terms and Conditions. Per order a handling fee of EUR 6.00 will be charged.

<u>Sampling and Submission:</u>

We recommend, especially for valuable sires, the submission of ear cartilage samples (taken by Caisley (preferred) or Typifix) or EDTA blood (1 - 3 mL). The submission of sperm samples as well as hair roots (15 - 20 pieces) is subject to surcharge (EUR 4.00 per animal).

Please note that the submission of hairs can potentially affect the analysis' quality as dirt, saliva and hairs from other animals can adulterate the result. Additionally, fewer roots on the hairs can hamper the analysis. The stronger the hairs and the roots the better. Please be very careful during sampling and clean the sampling equipment after every animal!

Please mark the samples according to your order form. Please send the samples to:

Eurofins Genomics Europe Applied Genomics GembH • Anzinger Str.7a
85560 Ebersberg • Germany

Sample processing starts each Monday. Samples should be delivered latest Monday morning (before 12 a.m.). Working days refers to business days Monday to Friday, excluding public holidays.

Usually the results are available within 7-10 working days and will be forwarded by postal service. If email reporting is desired, please state this on the order from.

For questions, please contact our Customer Support +49 (0)8092 / 8289-200 or contact us via email to appliedgenetics-eu@eurofins.com.
